RECOVERY SYSTEMS

RST1000BLG

SPECIFICATIONS

BRIQUETTER MODEL		RST1000BLG
Max Capacity	Aluminum	up to 800 (363kg)
Briquette Size		3.5"x3.5"
Motor		20 hp
Main Cylinder Bore		8"
Max Face Pressure		25,078 psi
Max System Pressure		5,000 psi
Electrical (460 V 3-phase)		60 amp
Machine Weight (pounds)		5,600 (2630kg)

*Production is based on an average input density. If the input density is lower the production will be lower than the throughput stated. Production numbers can be guaran teed if a sample is run.

>Integrated fluid collection and pumping system

>Steel belt take-away conveyors

>Heavy-duty frames

>Allen Bradley PLC

>Parker valves and pumps
